**Crypto-Magique Inc.**  
**Unified Command Network & Security Solutions**

**The problems we may be confronted with:**

- ☆ spies, criminals, traitors, competition,
- ☆ hackers, sabotage, infiltration, exfiltration
- ☆ governments, political agents and entities and limitless war vector scenarios
- ☆ cataclysm, disaster, infrastructure, utility or other collapse, hazards or unforeseen events
- ☆ liquidation and risk to valuable general and strategic enterprise
- ☆ inadequate technology, resources, procedures and policies
- ☆ problems and tasking with complex variables
- ☆ operating constraints and limited resources
- ☆ limited knowledge base and problem awareness
- ☆ risk management limitations and awareness
- ☆ civil and industrial defence infrastructure, capabilities and provisions
- ☆ operating systems, complex programs and multiple locations
- ☆ learning curve for new materials, technology and processes
- ☆ disfunction emotional states and performance variables
- ☆ risks of loss, compromise, capabilities, character and control
- ☆ total protection of what you know, make, do, have, are or anything you value.
- ☆ underperforming communication and security realities

The good news: Problems are temporary in nature if we deal effectively with them.

**Advanced Persistent Threats and even common everyday operations require:**

A massive armada of Advanced Unified Threat Management tools;  
A dynamic range of Unified Command Network & Security Solutions that can be deployed;  
Greater awareness, optimized resources & effective capabilities relevant to your world;  
Secure documents, communications, doctrine & procedures for integrity awareness;

*With the Crypto-Magique Inc. Unified Command Network & Security Program,  
development for incredibly awesome assets, tools & resource capabilities,  
to enable unified command for strategic, operational and tactical advantage,  
that makes no excuses and leaves nothing to chance,  
to secure, protect and manage risk, intel and communications.*

*The development and growth of any type of enterprise that adds value to our national economy must be protected from all threats foreign and domestic, as right now we are in total industrial, economic and currency war...in case you didn't notice...it would be easy to increase your awareness in ways beyond what you could presently imagine, concerning complexity, resources, determination and outright warfare that can be waged against anyone from just about anywhere at anytime.*

*In a group or as individuals, we all have rights and equivalent responsibilities, and as a consequence we can explore relevant options in a pro-active movement of willpower, decisiveness and direction to make real progress, secure victory, acquire and defend territory and succeed at mission tasking.*

*Let's get started, we have a lot of work and mission tasking to do!*
